

Profile

Front-end engineer with over 10 years of experience, 9 of them with React. I build component systems that scale, typed codebases that catch problems before QA does, and web and cross-platform apps that hold up in production. Currently at Docline (healthtech), working on the online-consultation platform and the component library its products share.

Experience

- Jan 2024 – **Senior Front-End Engineer, Docline (Aplicaciones de Salud, S.L.)**
Currently
- One of two front-end engineers covering all five of the company's products: *VideoConsultation*, *Portal*, *Backoffice*, *Docline Care* and *Docline Components*.
 - Own *Docline Components*, the component library every one of those products is built on. React, Styled-Components and TypeScript.
 - Set the front-end architecture and coding standards, and run code review and mentoring for the team.
 - Sole developer of *Docline Care*: built with React Native and Expo and shipped to both the App Store and Google Play.
 - Leading Docline's AI-adoption push since March 2026: introduced an agentic AI development methodology (BMAD), used it to build the company's back-office end-to-end, and now runs mentoring sessions and workshops to roll it out to the rest of the team.
- Aug 2022 – **Front-End Engineer, Shopery, S.L.**
Nov 2023
- *Mustang* and *YouPop*: storefronts with Next.js, React.js, TypeScript and SCSS, live in Spain, Mexico and the Dominican Republic. Front-end team of five.
- Sep 2021 – **Front-End Engineer, Stack and Vault, S.L.**
Aug 2022
- *Wotoch*: web app with Svelte and TypeScript.
 - *Voting Manager*: hybrid app with React.js, React Native, HTML5, SCSS and TypeScript.
 - *VR Manager* and *ImmoScout24*: web apps with React.js, HTML5, SCSS, TypeScript and Redux.
- Oct 2019 – **Programmer Analyst, Capitle Consulting**
Sep 2021
- *Verisure OWA*: web app with React.js, Redux, GraphQL, HTML5 and SCSS.
- Feb 2017 – **Front-End Developer, QUO Health, S.L.**
Oct 2019
- *gluQUO Diabetes Academy*: hybrid and web app with React.js, React Native, HTML5, SCSS, Firebase.
 - *O.K Transport*: web app with React.js, HTML5, CSS3, Bootstrap, Node.js, MongoDB.
 - *gluQUO PRO*, *Optima cc web*, *gluQUO web*, *QUO Health web*: web apps with React.js, HTML5, CSS3, Bootstrap.
- 2016 **Front-End Developer, freelance**
- *MarVal, S.L.* and *La Parada, S.L.*: Design, layout and website development with HTML5, CSS3, Bootstrap and JQuery.
- Sep 2015 – **IT Support (CAU), HM Hospitales (Montepríncipe)**
Jul 2016
- Maintenance, incident management and implementation of infrastructure.

Stack

Day to day	React, TypeScript, React Native, Expo, Styled-Components, SCSS
In production	Next.js, Svelte, Redux, GraphQL
Backend (2017–2019)	Node.js, Express, Firebase, MongoDB

Education

- 2024 **HND in Multiplatform Application Development, Ilerna, Online**
2020 **HND in Web Application Development, Ilerna, Online**
2017 **HND in Computer Systems and Networks Administration, IES Lázaro Cárdenas, Collado Villalba**
2015 **HND in Microcomputer Systems and Networks Technician, IES Infanta Elena, Galapagar**

Additional Information

Languages Spanish (native), English (fluent, after living in Dublin)
